

Jazz Events – Details

Challenges Faced:

- Designing the event booking structure and streamlining the user flow was quite challenging.
- Implementing a role-based permission system with Firebase Authentication involved some technical difficulties.
- Several revisions were needed to achieve proper responsive design and mobile optimization.

Future Improvements:

- An interactive calendar or seat selection feature could be added.
- The admin panel can be enhanced with analytics or a reporting system to gain insights.
- Email notifications or SMS alert systems can be integrated for upcoming event reminders.
